

auxano

architecture | interior design | branding

Auxano, established in the vibrant heart of London in 2022, draws its inspiration from the very essence of its name “Auxano,” meaning “to grow”.

Our firm is driven by dedicated professionals who share a profound belief in the power of innovative and sustainable design.

we design spaces that tell **stories**

Our work embodies narratives through bespoke details, vibrant colors, site-specific materials, and minimalist forms. Each project is carefully choreographed, creating emotionally charged and immersive spaces that captures the essence of the stories they tell.

Our approach goes beyond aesthetics where design is used as a powerful tool for shaping experiences within interior spaces.
